

The Framework at a Glance

Nine chapters, three movements — the whole arc on one page.

MOVEMENT I THE FORCE

Belief is a real power — the discovery, the evidence, and where it lives.

01

How I Came to Tap the Power of Belief

One force runs through every teaching that works — and its name is belief.

02

Mind Stuff Experiments

Everything man-made began as a thought — and thought creates after its kind.

03

What the Subconscious Is

The conscious mind reasons; the subconscious accepts, stores, and never sleeps.

MOVEMENT II THE METHOD

The tools that feed and direct the subconscious mind.

04

Suggestion Is Power

Say a thing often enough and clearly enough, and belief becomes conviction.

05

The Art of Mental Pictures

Picture the outcome vividly and constantly, and the subconscious builds toward it.

06

The Mirror Technique for Releasing the Subconscious

You cannot fake conviction to your own reflection — so convince it, and it convinces the world.

MOVEMENT III THE PROOF

Belief reaching outward — and turning into results.

07

How to Project Your Thoughts

Broadcast confidence and goodwill, and the world answers in kind.

08

Women and the Science of Belief

Women can use this science as fully as men — and few, Bristol says, yet realize it.

09

Belief Makes Things Happen

Whatever you can conceive and constantly hold, backed by will, you can bring into being.

“There is genuine magic in believing.”

CLAUDE M. BRISTOL

Believe → Program → Project

The daily practice of believing. Pin it up; keep it in the notebook.

BELIEVE

Decide what you want

- 1. Name your one desire**
State the single thing you want most, in one sentence.
- 2. Trust the force**
Treat belief as a real power, not wishful thinking.
- 3. Guard the gate**
Refuse fear-thoughts; replace them with your picture.
- 4. Begin before you see how**
Commit first — the way appears as you go.
- 5. Enlist your second mind**
Hand the subconscious your goal; it works while you sleep.

PROGRAM

Feed it into the subconscious

- 1. Write it on cards**
Your goal in two words — on wallet, mirror, bed, desk.
- 2. Charge dawn and dusk**
Picture it last thing at night, first thing on waking.
- 3. Repeat to conviction**
Say it until belief hardens into certainty.
- 4. Rehearse in the mirror**
Eyes on your own eyes, goal spoken aloud with force.
- 5. Shrink your fears**
Re-picture the frightening figure small and harmless.
- 6. Add energized action**
Hold the goal, then work, save, and move toward it.
- 7. Follow the hunches**
Keep a pad by the bed; act on the ideas that come.

PROJECT

Send it into the world

- 1. Broadcast the attitude**
Send confidence and goodwill; it returns multiplied.
- 2. Carry your aura**
Enter each room expecting to win; people give way.
- 3. Give first**
Take the initiative for others; reciprocity pays back.
- 4. Choose your circle**
Stay near the positive; you absorb what surrounds you.
- 5. Start something new**
Begin one new thing a week — never coast, never rust.
- 6. Remember all is within**
Happiness is a state of mind, not a circumstance.
- 7. Will it through**
Use the cards and mirror daily; hold on, resolute.
